Parent Supports

We partner with families to **build trust**, share transparent **well-being resources**, and **extend learning** beyond the classroom—equipping parents with tools to support well-being and strengthen their role at home.

PARENT GUIDES

Each of our lessons includes a 1-page document that provides a brief overview of the lesson content as well as discussion questions and learning opportunities to use at home. Currently, all of our lessons include parent guides in both English and Spanish.

OTHER RESOURCES

In Focus is pleased to be partnering with the Cook Center for Human Connection. As such, you have access to parentguidance.org, a free resource that helps parents find answers to help their child(ren).
